More than just a wear.

Enable expression, cherish individuality.
#UnyqWayOfLife

Our prosthetic covers reflect what makes you UNIQUE.
Each one is crafted to fit you and ONLY you.
Protection and design that recreates your anatomic shape,
while offering a new way to express your personality.

CustomFit Next
Glossy
Black

We Care

We design our covers for above and below the knee prostheses (including osseointegrated prosthesis and bilateral patients), while using different solutions to allow components full functionality.

As each prosthetic combination is completely different from the other, our designers **tailor the cover** to fit perfectly onto your prosthesis.

100% Symmetry

In our Custom Collection we design each cover to match specifically with your anatomy and prosthesis.

We first make a prosthesis mockup which is shown in a digital preview where you can request design changes to your cover before 3D Printing, to ensure that the final result meets all your expectations.

CustomFit Next

Red

At UNYQ, we feel proud to be pioneers in prosthetic covers design by putting the focus on expression and self-esteem. Our community's stories are our constant inspiration to continue making a real impact on their lives. **Welcome to a new you!**

Style

We unlock the power of expression with infinite options to show off your personality. With a wide range of creative designs in more than 40 colors, unlimited combinations and details, we give you the opportunity to **design yourself** your very own and personal cover. Combine style and anatomy to help you boost your self-esteem and confidence.

Like a car bumper or phone case, our covers are a **protector for prosthesis**. They endure the impacts from everyday life to avoid damaging your expensive prosthetic components. They also keep clothes from being pinched or getting caught in your prosthetic components.

Protection

Fit & Adjust

Each of our covers are designed to wrap your leg without any rear gap, to recreate a more anatomic shape. They fit easily to the prosthesis in just a few seconds using strong magnets and our own Fast-Clamp. This system **keeps them fixed** so they don't move around the prosthesis, while allowing an **easy access** to the prosthetic components for charging knees, feet, cleaning them up or just changing the style with a different cover. For more active users, we also have a screw attachment for an even more secure fitting.

We use innovative 3D printing technologies and material, that with our handmade post-processing and a **high quality automotive** paint job, gives our covers the highest quality finishing, making them lightweight and water-resistant. The colors don't stain or transfer onto clothes, and the smooth surface allows for a quick and easy cleaning of the cover.

UNYQ CustomFit FLEX

Custom Prosthetic Covers

All of our CustomFit designs are **100% CUSTOM**, created as a reflection of your sound leg, to get a figure anatomically symmetric.

Our **CustomFit FLEX** covers are made with a new material **TPU**, totally flexible, which allows for greater protection of the prosthesis by absorbing impacts and providing more comfort to the patient.

UNYQ CustomFit FLEX

CustomFit Flex covers come in 10 different designs that combine high resistance and style, with plenty of colors to combine and express yourself.

What sets the **Flex** covers apart is the **flexibility** and **lightness** of their material, allowing for greater shock absorption, like a bumper of a car. All of them are **customized** for each prosthesis and anatomy of the user, available for AK and BK prostheses.

UNYQ[®] KneeFit

Joint Covers

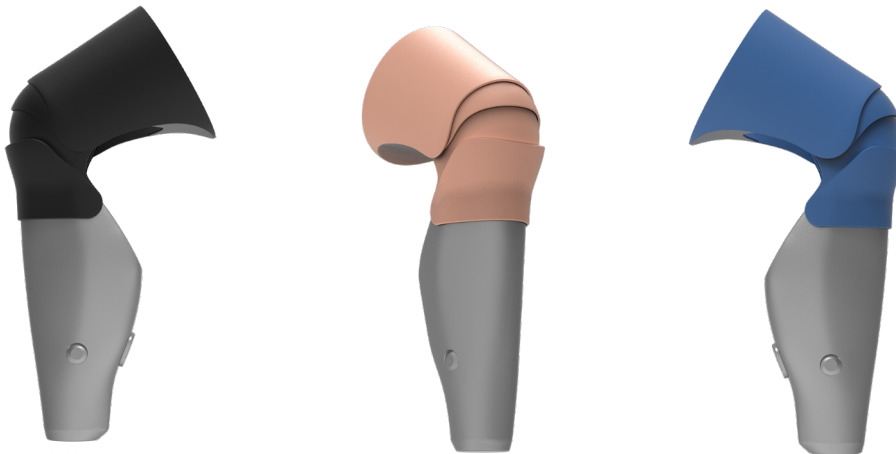

UNYQ KneeFit are our ready-to-fit option available for Transfemoral prosthesis with specific prosthetic knees. Made by 3D printing in Polyamide (PA12), a thermoplastic material with great mechanical characteristics which makes it ideal to create resistant and lightweight applications.

KneeFit offer protection for the prosthetic components around the knee area and semi-custom shape for the user in the area between the prosthetic knee and the socket. They come in a single shape and length that can be **directly adjusted** in the clinic for each user.

KneeFit can be stocked, as there are **no photos and measurements required**, and having it ready to wear in a single appointment after adapting the length and shape to the socket. Our delivery time is only 14 days.

How does **KneeFit** works?

AVAILABLE **COLORS**

How to order UNYQ?

1 Choose

Product: CustomFit (Firm or Flex) / OneFit / KneeFit / QuickFit (Firm)
Material: **Firm / Flex.**
Design and Colors.
Coating: **Matte / Glossy or Satin** (QuickFit & KneeFit)

2 Choose the extras:
(only for CustomFit & OneFit)

ATTACHMENT

Magnets & Fast-clamp

Our covers are attached to the prosthesis with magnets and our easy fast-clamp system by default.

Screws & C-clamp

If the user is active, we recommend choosing Screws & C-Clamp instead for even safer attachment.

PERSONALIZE YOUR COVER

Vinyl

Coloured adhesive image.

Only for Custom Fit Firm covers.

Available for the designs: Rako, Swan, Crystal, Brizz, U, Flow, Galaxy, Next, Odissey, Ribbons, Rivet, Trooper, Wave, Natura, Perseus, Yoku.

Engrave

3D printed image on the cover's surface.

Only for Custom Fit (Firm & Flex).

Available for designs: Rako, Swan, Crystal, Brizz, U, Flow, Galaxy, Next, Odissey, Ribbons, Rivet, Trooper, Wave, Natura, Perseus, Yoku.

KneeBumper

Extra protection for your cover.

Only for CustomFit Firm covers.

Available on these designs (not for Flex covers): Swan, Crystal, Brizz, Natura, U, Circuit, Flow, Galaxy, Next, Odissey, Rivet, Wave, Trooper.

How to order UNYQ?

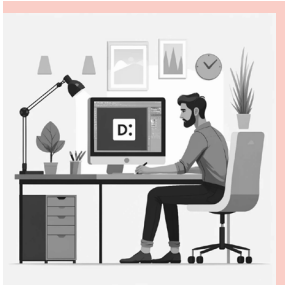

3 Follow these steps to order your UNYQ covers. It's easy and fast!

MEASUREMENTS

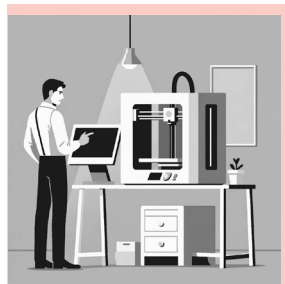

We only need photos, measurements or 3D scanning, depending on the product you want. You will find the instructions on the ordering form. *(Not needed for QuickFit / KneeFit)*

DESIGN

Our design team will create the cover taking into account the shape of the sound leg so that they are symmetrical. We first send a Mockup, and when it's OK, we send it to print.

MANUFACTURING

UNYQ has their own printing team, we supervise the entire process from printing to painting, until it is ready to be shipped.

DELIVERY

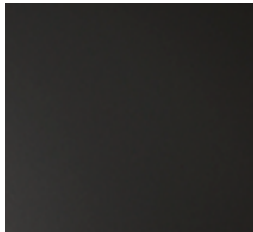

Depending of the type of product and the material, the cover will be shipped between 2-5 weeks from the Mockup's OK.

Send us the pictures, measurements or 3Dscannings files (.stl) with the Order Sheet, throug our APP, Website or to **orders@unyq.com**. If you need further assistance please contact us at **hello@unyq.com** or US: +1 415 430 9676 EU:+34 854 85 60 92

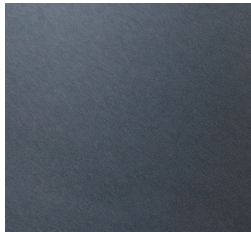

UNYQ Colors

Colors to suit every taste! More than 40 colors to choose from and infinite options to combine in your cover. Each of them is coated in matt or glossy finishing, on your preference.
